We're grateful for the skilled work teams and passionate summer interns who joined us in the Dominican Republic in 2024! These teams helped improve campuses like Palo Blanco School by building classrooms, organizing book fairs, leading art projects, and engaging in sports ministry. Their encouragement uplifted staff and missionaries alike. Our interns contributed to hosting teams, conducting healthcare research, and sharing impactful stories. This year, we've celebrated students coming to faith, baptisms, and Christian marriages—proof of God's transformative work through AWANA and partner churches. Thank you for making this possible!
